Telepermit Application:

- **Dual-Band Wireless AX 10G PON VoIP IAD with SFP+**

Dear Shane,

Further to your Telepermit applications of 28 October 2020, I am pleased to confirm that a Telepermit has been granted for the product.

-The Telepermit details are:

Dual-Band Wireless AX 10G PON VoIP IAD with SFP+ PTC 220/20/054

General Conditions

As required by PTC100, please ensure that this office is advised of any changes to the specifications of these products which might affect compliance with the relevant PTC Specifications.

The grant of this Telepermit is specific to the above product(s) with the marketing description as stated on the Telepermit label artwork. The Telepermit may not be assigned to other parties or other products without the approval of this office.

A Telepermit artwork for each device is included from which you may prepare any number of Telepermit labels subject to the general instructions on format size and colour quoted on the attached sheet.

The Telepermit label must be displayed on the product at all times as proof to purchasers and service personnel that the product is able to be legitimately connected to the Spark New Zealand network.

The Telepermit label may also be shown on the packaging, user documentation and in the sales literature.

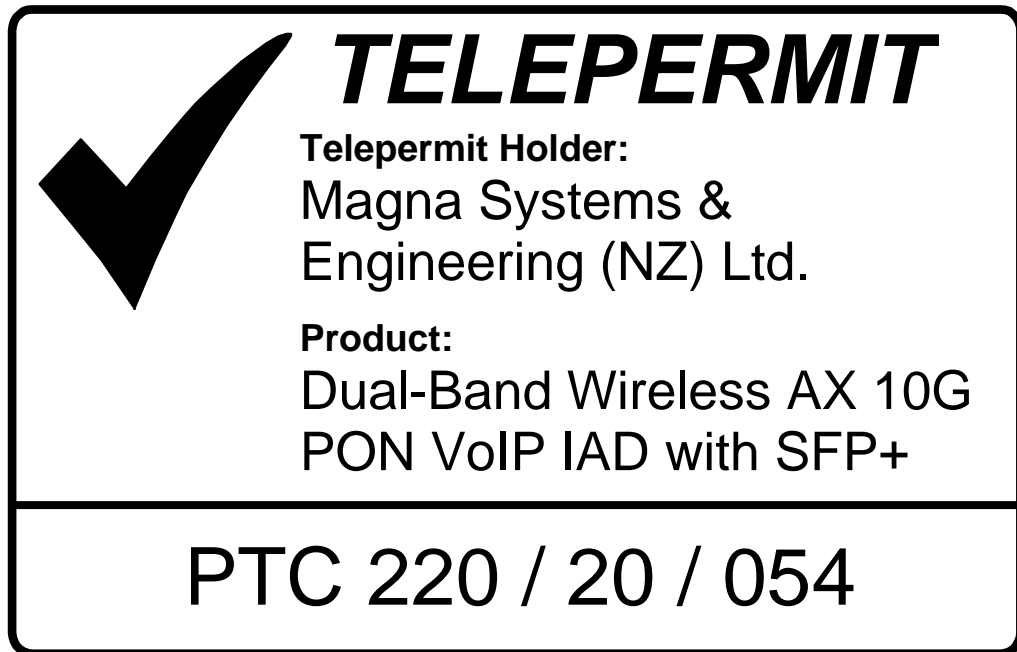

The fee for processing this Telepermit Application, including the Telepermit Reservation, is \$580 including 15% GST.

An Invoice for the total amount of \$580.00 has already been paid thus no further charges will be levied.

Yours sincerely,

Bill Dawid
