

EU – TYPE EXAMINATION CERTIFICATE
RADIO EQUIPMENT DIRECTIVE 2014/53/EU
Annex III Module B

MANUFACTURER

Name	:	Zyxel Communications Corporation
Address	:	No.2 Industry East RD. IX, Hsinchu Science Park, Hsinchu 30075, Taiwan, R.O.C
Contact Name & Title	:	Yi Wang
Email	:	ywang@zyxel.com.tw
Phone number	:	+886-3-577-7998 # 56780

PRODUCT DESCRIPTION

Trademark/Trade Name	:	ZYXEL
Model Number	:	NR7701
Product Description	:	5G NR Outdoor Router

NOTIFIED BODY

Certificate issued by	:	Notified Body 1177, IIA Lab Services, LLC	
Certificate number	:	E1177-255983	
Name and Signature	:	Bruno Clavier 	Date: October 17, 2025

The device shall be marked as follows: 

Based on the evidence presented in the Technical Documentation, IIA Lab Services, LLC, as appointed Notified Body, has issued this EU-Type Examination Certificate in accordance with Annex III Module B. The product described appears to be in conformity with the essential requirements Article 3.1(a), 3.1(b), and 3.2 of RED 2014/53/EU. This certificate relates only to the documents as provided to IIA Lab Services, LLC and is valid up to (1) the date of cessation of presumption of conformity of any of the superseded standards which were used for testing this product and assessed by Notified Body or (2) the date of modifications to the approved type that may affect the conformity of the apparatus with the essential requirements of this Directive or the conditions for validity of that certificate, whichever comes first.

IIA Lab Services, LLC. 13146 NW 86th Drive, Suite 400 Alachua, FL 32615 USA www.industrial-ia.com A2LA Accredited (Certificate No. 0955.02)	This Certificate is issued under the provision that IIA Lab Services, LLC nor its subsidiary companies accept any liability concerning the contents of this document other than forced by law. Reproduction of the Certificate (with Annex) in full is allowed. Reproduction of parts of this certificate may only be allowed by written permission of IIA Lab Services, LLC.

INDUSTRIAL
INSPECTION & ANALYSIS

EU – TYPE EXAMINATION CERTIFICATE
E1177-255983

Date: October 17, 2025

PRODUCT SPECIFICATIONS

Intended Use / Category :	LTE
RF output power :	LTE Band 1: 25 dBm, Conducted LTE Band 3: 25 dBm, Conducted LTE Band 7: 25 dBm, Conducted LTE Band 8: 25 dBm, Conducted LTE Band 20: 25 dBm, Conducted LTE Band 28: 25 dBm, Conducted LTE Band 38: 28 dBm, Conducted class 2 / 25dBm, Conducted class 3 LTE Band 40: 25 dBm, Conducted LTE Band 41: 28 dBm, Conducted class 2 / 25dBm, Conducted class 3 LTE Band 42: 28 dBm, Conducted class 2 / 25dBm, Conducted class 3 LTE Band 43: 25 dBm, Conducted
Frequency range (MHz) :	LTE Band 1: 1920 MHz - 1980 MHz LTE Band 3: 1710 MHz - 1785 MHz LTE Band 7: 2500 MHz - 2570 MHz LTE Band 8: 880 MHz - 915 MHz LTE Band 20: 832 MHz - 862 MHz LTE Band 28: 703 MHz - 748 MHz LTE Band 32: 1452 MHz - 1496 MHz (DL) LTE Band 38: 2570 MHz - 2620 MHz LTE Band 40: 2300 MHz - 2400 MHz LTE Band 41: 2496 MHz - 2690 MHz LTE Band 42: 3400 MHz - 3600 MHz LTE Band 43: 3600 MHz - 3800 MHz
Modulation :	QPSK, 16QAM, 64QAM, 256QAM (Uplink) QPSK, 16QAM, 64QAM, 256QAM (Downlink)
Antenna type :	PCB

Intended Use / Category :	5G NR
RF output power :	n1: 25 dBm, Conducted n3: 25 dBm, Conducted n7: 25 dBm, Conducted n8: 25 dBm, Conducted n20: 25 dBm, Conducted n28: 25 dBm, Conducted n38: 25 dBm, Conducted n40: 25 dBm, Conducted n41: 31 dBm, Conducted class 1.5 / 28dBm, Conducted class 2 / 25dBm, Conducted class 3 n77: 31 dBm, Conducted class 1.5 / 28dBm, Conducted class 2 / 25dBm, Conducted class 3 n78: 31 dBm, Conducted class 1.5 / 28dBm, Conducted class 2 / 25dBm, Conducted class 3
Frequency range (MHz) :	n1: 1920 MHz - 1980 MHz n3: 1710 MHz - 1785 MHz n7: 2500 MHz - 2570 MHz n8: 880 MHz - 915 MHz n20: 832 MHz - 862 MHz n28: 703 MHz - 748 MHz n38: 2570 MHz - 2620 MHz n40: 2300 MHz - 2400 MHz n41: 2496 MHz - 2690 MHz n77: 3300 MHz - 4200 MHz n78: 3300 MHz - 3800 MHz
Modulation :	QPSK, 16QAM, 64AQM, 256QAM for CP-OFDM $\pi/2$ -BPSK, QPSK, 16QAM, 64QAM and 256QAM for DFT-s-OFDM
Antenna type :	PCB

Intended Use / Category :	IEEE 802.11b/g/n
RF output power :	19.95 dBm (EIRP)
Frequency range (MHz) :	2412-2472MHz
Modulation :	DSSS-DBPSK, DQPSK, CCK OFDM -BPSK, QPSK, 16QAM, 64QAM
Antenna type :	PIFA

Intended Use / Category :	GNSS RX BDS / Galileo / GLONASS / GPS
Frequency range (MHz) :	1559 - 1610MHz
Antenna type :	PIFA

The following standards were applied:

ESSENTIAL REQUIREMENTS

Essential Requirement	Standard Number & Version
Health (Article 3.1a) :	EN IEC 62311:2020 EN 50665:2017 EN 50385:2017
Safety (Article 3.1a) :	IEC 62368-1:2018 EN IEC 62368-1:2020+A11:2020
EMC (Article 3.1b) :	EN 301 489-1 V2.2.3 EN 301 489-17 V3.3.1 EN 301 489-19 V2.2.1 EN 301 489-52 V1.3.1
Radio (Article 3.2) :	EN 301 908-1 V15.2.1 EN 301 908-13 V13.2.1 Draft EN 301 908-25 V15.1.1_0.0.12 EN 300 328 V2.2.2 EN 303 413 V1.2.1
Cybersecurity (Article 3.3d) :	Assessment not requested
Cybersecurity (Article 3.3e) :	Assessment not requested
Cybersecurity (Article 3.3f) :	Assessment not requested
Emergency Service (Article 3.3g) :	Assessment not requested
Common Chargers (Article 3.4) :	Assessment not requested

ELEMENTS ASSESSED

#	Description	
1.	A general description of the radio equipment including: (i) Photographs or illustrations showing external features, marking and internal layout; (ii) Versions of software or firmware affecting compliance with essential requirements; (iii) User information and installation instructions;	<input checked="" type="checkbox"/>
2.	Conceptual design and manufacturing drawings and schemes of components, sub-assemblies, circuits and other relevant similar elements	<input checked="" type="checkbox"/>
3.	Descriptions and explanations necessary for the understanding of those drawings and schemes and the operation of the radio equipment	<input checked="" type="checkbox"/>
4.	List of the harmonized standards applied in full or in part, the references of which have been published in the Official Journal of the European Union, and, where those harmonized standards have not been applied, descriptions of the solutions adopted to meet the essential requirements set out in Article 3, including a list of other relevant technical specifications applied. In the event of partly applied harmonized standards, the technical documentation shall specify the parts which have been applied	<input checked="" type="checkbox"/>
5.	Copy of the EU Declaration of Conformity	<input checked="" type="checkbox"/>
6.	An explanation of the compliance with the requirement of RED Article 10(2) and of the inclusion or not of information on the packaging in accordance with RED Article 10(10)	<input checked="" type="checkbox"/>
7.	Risk Assessment. RED Annex III module B - Analysis and assessment of the risk(s)	<input checked="" type="checkbox"/>
8.	If Applicable: Results of design calculations made, examinations carried out, and other relevant similar elements	<input checked="" type="checkbox"/>
9.	If Applicable: where the conformity assessment module in Annex III has been applied, copy of the EU-type examination certificate and its annexes as delivered by other notified bodies involved.	<input type="checkbox"/>
10.	If Applicable: Modification/Standard Update/Applicant or Manufacturer cover letter explaining the changes to the existing version of the product along with supporting exhibits.	<input type="checkbox"/>

TEST REPORTS ASSESSED

Type of Test Report	Test Report Number	Issue Date/Rev. No.
Radio 2.4GHz Wi-Fi	ER570104AC	Oct. 13, 2025 / 01
Radio LTE	ER570104AA	Oct. 13, 2025 / 01
Radio NR	EM570104NR	Oct. 13, 2025 / 01
Radio GNSS	ER570104AK	Oct. 13, 2025 / 01
Radio LTE	PD20230190RF02	Jan. 15, 2024 / 01
Radio NR	PD20230190RF03	Jan. 16, 2024 / 01
EMC	EW570104	Oct. 13, 2025 / 01
Health	EA570104	Oct. 13, 2025 / 02
Safety	WL25E2305-L1	Sep. 26, 2025 / 01

This certificate is issued under the following additional and non-exhaustive list of provisions of the Radio Equipment Directive (2014/53/EU) of the European Parliament and the Council of the European Union:

1. **Article 10(1):** When placing their radio equipment on the market, manufacturers shall ensure that it has been designed and manufactured in accordance with the essential requirements set out in Article 3.
2. **Article 10(2):** Manufacturers shall ensure that radio equipment shall be so constructed that it can be operated in at least one Member State without infringing applicable requirements on the use of radio spectrum.
3. **Article 10(4):** Manufacturers shall keep a copy of the EU-type examination certificate, its annexes and additions together with the technical documentation at the disposal of the national authorities for 10 years after the apparatus has been placed on the market.
4. **Article 10(5):** Manufacturers shall ensure that procedures are in place for series production to remain in conformity with this Directive. Changes in radio equipment design or characteristics and changes in the harmonised standards or in other technical specifications by reference to which conformity of radio equipment is declared shall be adequately taken into account.
When deemed appropriate with regard to the risks presented by radio equipment, manufacturers shall, to protect the health and safety of end-users, carry out sample testing of radio equipment made available on the market, investigate, and, if necessary, keep a register of complaints, of non-conforming radio equipment and radio equipment recalls, and shall keep distributors informed of any such monitoring.
5. **Article 10(6):** Manufacturers shall ensure that radio equipment which they have placed on the market bears a type, batch or serial number or other element allowing its identification, or, where the size or nature of the radio equipment does not allow it, that the required information is provided on the packaging, or in a document accompanying the radio equipment.
6. **Article 10(7):** Manufacturers shall indicate on the radio equipment their name, registered trade name or registered trade mark and the postal address at which they can be contacted or, where the size or nature of radio equipment does not allow it, on its packaging, or in a document accompanying the radio equipment. The address shall indicate a single point at which the manufacturer can be contacted. The contact details shall be in a language easily understood by end-users and market surveillance authorities.

Excerpts from Blue Guide:

- If the manufacturer (declaring himself as a manufacturer by putting his name and address on the product) is **outside the EU** and the products are placed on the Union market by an importer, the product will bear two addresses: the one of the manufacturer and the one of the importer. Indicate the following three elements: his (1) name, (2) registered trade name or registered trade mark and (3) a single contact postal address at which they can be contacted on the product or when not possible because of the size or physical characteristics of the products, on its packaging and/or on the accompanying documentation. The single contact point may not necessarily be located in the Member State where the product is made available on the market.
(Notes: However, if the importer acts as the manufacturer's Authorised Representative, then only the importer's address is required on the product.)
- If the original manufacturer is **outside the EU** and the importer places the product on the market under his own name or trademark or modifies the product already placed on the market (in such a way that compliance with the applicable requirements may be affected), the importer is considered the manufacturer. The only address that in this case will figure on the product (or packaging or accompanying document) is the address of the importer who is considered as the manufacturer.
- If the manufacturer is **within the EU**, the product will bear only one (manufacturer's) address as there is no importer involved.
- If the manufacturer is **within the EU** (a company located in the EU declaring itself to be a manufacturer by putting its name and address on the product) although the products are manufactured outside the EU, that company is considered to be the manufacturer who places the product on the Union market, even if actual importation is done by another company. In this case there is no importer in the meaning of the importer's definition and it is sufficient to put only the manufacturer's address.

7. **Article 10(8):** Manufacturers shall ensure that the radio equipment is accompanied by instructions and safety information in a language which can be easily understood by consumers and other end-users, as determined by the Member State concerned. Instructions shall include the information required to use radio equipment in accordance with its intended use. Such information shall include, where applicable, a description of accessories and components, including software, which allow the radio equipment to operate as intended. Such instructions and safety information, as well as any labelling, shall be clear, understandable and intelligible.
The following information shall also be included in the case of radio equipment intentionally emitting radio waves:
(a) frequency band(s) in which the radio equipment operates;
(b) maximum radio-frequency power transmitted in the frequency band(s) in which the radio equipment operates.
8. **Article 10(9):** Manufacturers shall ensure that each item of radio equipment is accompanied by a copy of the EU declaration of conformity or by a simplified EU declaration of conformity. Where a simplified EU declaration of conformity is provided, it shall contain the exact internet address where the full text of the EU declaration of conformity can be obtained. The simplified EU declaration of conformity is to be placed in the user's manual:
*Hereby, [Name of manufacturer] declares that the radio equipment type [designation of type of radio equipment] is in compliance with Directive 2014/53/EU.
The full text of the EU declaration of conformity is available at the following internet address:xxxxx*
9. **Article 10(10):** In cases of restrictions on putting into service or of requirements for authorisation of use, information available on the packaging shall allow the identification of the Member States or the geographical area within a Member State where restrictions on putting into service or requirements for authorisation of use exist. Such information shall be completed in the instructions accompanying the radio equipment. The Commission may adopt implementing acts specifying how to present that information. Those implementing acts shall be adopted in accordance with the advisory procedure referred to in Article 45(2).
10. **Article 10(11):** Manufacturers who consider or have reason to believe that radio equipment which they have placed on the market is not in conformity with this Directive shall immediately take the corrective measures necessary to bring that radio equipment into conformity, to withdraw it or recall it, if appropriate. Furthermore, where the radio equipment presents a risk, manufacturers shall immediately inform the competent national authorities of the Member States in which they made the radio equipment available on the market to that effect, giving details, in particular, of the non-compliance, of any corrective measures taken and of the results thereof.
11. **Article 10(12):** Manufacturers shall, further to a reasoned request from a competent national authority, provide it with all the information and documentation in paper or electronic form necessary to demonstrate the conformity of the radio equipment with this Directive, in a language which can be easily understood by that authority. They shall cooperate with that authority, at its request, on any action taken to eliminate the risks posed by radio equipment which they have placed on the market.
12. **Article 19(2):** On account of the nature of radio equipment, the height of the CE marking affixed to radio equipment may be lower than 5 mm, provided that it remains visible and legible.
13. **Article 20(1):** The CE marking shall be affixed visibly, legibly and indelibly to the radio equipment or to its data plate, unless that is not possible or not warranted on account of the nature of radio equipment. The CE marking shall also be affixed visibly and legibly to the packaging.
14. **Annex III Module B, Point 7, Declaration of Conformity:** The manufacturer shall inform the notified body that holds the technical documentation relating to the EU-type examination certificate of all modifications to the approved type that may affect the conformity of the radio equipment with the essential requirements of this Directive or the conditions for validity of that certificate. Such modifications shall require additional approval in the form of an addition to the original EU-type examination certificate.
15. **Annex VI Declaration of Conformity, Point 8:** Where applicable, description of accessories and components, including software, which allow the radio equipment to operate as intended and covered by the EU declaration of conformity.
16. **Product Specifications:** The antenna gain and any other data is provided by the applicant.
