A line drawing of the PM7510-R0 device, a small rectangular box with the ZYXEL logo, mounted on a larger rectangular fiber box.

PM7510-R0 installed on the fiber box

Warning! Do NOT remove the PM7510-R0 from the fiber box or open the fiber box. Opening the fiber box could damage the fiber optic cable. ONLY qualified service personnel should service or disassemble the PM7510-R0 and fiber box. Contact your ISP for further information.

- ① Find the PM7510-R0 installed by the ISP on the fiber box.
- ② Connect a computer, router, or gateway to the **10G LAN** port using the white Ethernet cable.
- ③ Use the included power adapter to connect the power socket to a power outlet.
- ④ Press the cable clip to open it. Close it around the power adapter cable to prevent accidental unplugging.
